## **VI Summer International Scientific School for students, undergraduates, graduate students and young scientists on economic psychology and experimental economics**

The **VI Summer International Scientific School** for students, undergraduates, graduate students and young scientists on economic psychology and experimental economics will be held from **27 May to 3 June, 2019** in Saratov on the basis of the Center of Psycho-Economics Researches of Stolypin Volga Region Institute of Administration - the branch of Russian Presidential Academy of National Economy and Public Administration.

**The main objectives** of the scientific school are the formation of systemic interdisciplinary thinking in the field of understanding economic processes (from neurophysiological to macrosocial), development of research skills in the field of economic psychology, neuroeconomics, neuromarketing, experimental economics, development of cooperation between young scientists from different regions, ensuring internal Russian mobility of young scientists.

In the program of the school:

- **EXPERT LECTURES and MASTER CLASSES;**
- **PRESENTATION** of new and distribution of classical works in the field of modern methodology, economic psychology, behavioral economic theory and classical economic theory.
- **PSYCHOECONOMICS SIMULATORS**
- **DEVELOPMENT AND PROTECTION** of research projects under the guidance of the world's leading researchers in the field of economic psychology and experimental economics.

Applications for participation in the school are accepted as speakers, scientific consultants, and leading master classes. The organizing committee reserves the right to select candidates that are most relevant to the subject of the scientific school.

The working languages of the scientific school are Russian and English.

**Application procedure:**
